PPG25/025	Introduction to the practice ipad The group member spent some time looking at what can be accessed from the iPad. Most of the links can be accessed by patients via their web browser. Members are happy to support patients who may require a bit of help, although it is noted that none of the members are experts in this field. The group were unable to open the NHS APP as it required a log in. JE will enquire at the practice to see if they have a play patient set up. The group looked at access to Community Urgent Eye Service (CUES) from the app. JE to feedback what the criteria is for this service. Answer • Red or painful eye or eyelids • Recently occurring flashes and floaters • Recent and sudden loss of vision • Foreign body in the eye	JE
