PPG25/052	10 year Plan The NHS is under pressure — long waits, staff shortages, and difficulty getting GP or dental appointments. This plan is the government's response to rebuild and modernise the NHS so it works better for everyone. Three Big Changes (The “Three Shifts”) From Hospitals to Communities - More care will happen closer to home, not just in hospitals. - New neighbourhood health centres will offer GP, mental health, rehab, and diagnostic services under one roof. - Aim: Faster access and less travel for patients. From Analogue to Digital - The NHS App will become the main way to: - Book appointments - View care plans - Get advice or referrals AI tools will help doctors save time on admin. - Phone systems will be upgraded so GP calls are answered more quickly. From Treating Illness to Preventing It - Focus on keeping people healthy, not just treating them when they're sick. - More community outreach and early detection of health issues. - Support for people with long-term conditions to manage their own care. What Else Is Changing? - New NHS workforce model: More staff, better training, and support. - More transparency: Easier to see how services are performing. - Better use of funding: Smarter spending to reduce waste and improve care. Why It Matters to Patients - Shorter waiting times - Easier access to GPs and dentists - More personalised care - Better use of technology - Focus on prevention and wellbeing	
PPG25/053	General Discussion No concerns raised. Happy with meeting monthly.	
PPG25/054	AOB None Raised	
PPG25/055	Close Next meeting 6th October 5pm to 6.30pm
